

Personal Skills Video Offer during 2012 All American Camp

Diamond Skills Baseball will be offering players the option of purchasing personal videos from the All American Camp. The video will have a short bio (name, grade, school etc.) on the player and then will capture the player executing the necessary skills for evaluation by coaches viewing the video. Position player videos will show the player hitting, fielding, throwing and running. The video will capture pitchers throwing a bullpen with shots from the front, back and side. The video will capture catchers hitting, running, throwing, receiving and blocking. These videos will be available on the Diamond Skills Baseball website with a password protected login making it easy for players to view the video. This can be a great resource for players interested in showing their video to coaches from schools they are interested in attending. The cost is \$125 dollars for a single video (infield, outfield, pitching, catching) or \$225 dollars for 2 videos (inf/p, inf/c, of/p, of/c, p/c). There is a box in the online registration form below the insurance information to sign up for this offer. There is also a registration section on the downloadable form from the website.
